

10th Coprocess User Group Meeting 2020: Postponed

Created: Thursday, 30 January 2020 11:48

Very informative, inspiring, useful, great for networking! This is just a small part of the feedback we received from attendees at the 9th Coprocess User Group. We couldn't have packed any more in...or could we?

10th Coprocess User Group 2020 - postponed

10th Coprocess User Group Meeting to be held on **Thursday 4 and Friday 5 June 2020** at **The [Hotel Chavannes](#)** has been delayed to later in the year. Please check back regularly for the new date

The Coprocess Netting solution continues to evolve and maintain its pre-eminent position as the world's leading Intercompany netting product. Since the last user Group meeting, we have been busy, not least:

- On-boarding more than 40 new corporates. Today there are over 170 corporates using our netting solution
- Adding many new features and improvements to many others, including, **API connectivity, Bilateral Netting, Payment blocking, Secure storage of file attachments, Security enhancements**
- Improving and keeping abreast of changing industry requirement and best practice

The User Group Meeting will cover the main changes and improvements to the solution in the last 2 years and as usual we will be using client case studies as much as possible to highlight these changes. The final agenda will follow shortly, but we are delighted to already confirm case studies from **ABB, Adecco** and **FrieslandCampina**. If you wish a topic to be discussed, it is not yet too late to mention it.

As in previous years, the event starts at 2pm on Thursday 4th and finishes at 12am on Friday and there will be a dinner hosted by Coprocess on the Thursday evening. There will be no charge for the seminar, but we would ask all attendees to pay for their own travel and accommodation expenses. Coprocess has negotiated a preferential rate for the accommodation (CHF 165, including breakfast). The Hotel also has a free shuttle bus between Geneva airport and the hotel.

Booking

If you would like to attend, please use the form found in [contact us](#). Please feel free to bring a colleague. If you could reply to this email ASAP but no later than **Friday 28 Feb** so that we can confirm numbers back to the Hotel.

Come and enhance your Netting skills and network with other Netting Users!

We very much look forward to seeing you in June

Many of the presentations will be available to clients on the [Coprocess Forum](#)

10th Coprocess User Group Meeting 2020: Postponed

Created: Thursday, 30 January 2020 11:48
