

List of Countries with and without Netting Restrictions

The table below is a list of countries where to the best of our knowledge netting is allowed, in some cases subject to certain restrictions. There are currently over 50 countries where full netting is allowed with no restrictions and there are a further 30 where netting is possible but with restrictions. For more details please [contact Coprocess](#) or login to the [Coprocess User Forum](#).

With the on-going liberalisation of markets more countries are allowing netting, China being a major example. [This page](#) is being maintained and updated by Coprocess to keep it current and is for the benefit of any company using multilateral netting. Feel free to link to this [spreadsheet](#) on your own website or download the [PDF version](#). The Spreadsheet is a live document, i.e. it will update automatically.

Disclaimer: This information is provided on a *to the best of our knowledge basis*. This document should not be taken as legal proof or binding in any way. Please always check with your in-country local bank and / or the central bank if you are unsure and are starting netting in a country for the first time.
